

NEWBURY SCHOOLS INTRODUCE PAYFORIT.NET PAY FOR SCHOOL LUNCHES AND FEES ONLINE

The Newbury School District is excited about giving parents the ability to manage their child's lunch and fee accounts over the internet using PayForIt.net. This new technology benefits both parents and students. Parents will no longer have to worry about money not reaching the school or their child running out of lunch money. Students do not have to worry about having no money to pay for their lunches.

Parents can sign up for a PayForIt.net account at any time. Once the account is activated they can start taking advantage of all the features PayForIt.net offers including:

- Establishing recurring payments so they don't have to worry about their child not having lunch money
- Setting up email reminders so they know when their child's account is getting low
- The convenience of depositing money 24 hours a day, 7 days a week
- Monitoring their child's lunch purchases
- Online step by step tutorials on how to use PayForIt.net
- A safe and secure online payment system

PayForIt.net integrates seamlessly with the district's software. Transactions generated by 9pm ET, in most cases, are transferred and available for students the next morning.
