Information Regarding Food Allergies, Sensitivities and Diabetic Students: A physician's statement is required for specific food substitutions in the case of life-threatening allergies (this includes milk). It is the parent's responsibility to review the monthly menu and contact the Director of Nutrition Services with questions regarding specific content of food items (440-564-5501). We do not ban any food from the school setting and we are not a peanut/nut-free school district. We use the guidelines as set forth in the The School Food Allergy Program by The Food Allergy Research and Education Network (FARE). Carb counts and nutritional information for most food items are available on our website. Please call or email for any other information. This institution is an equal opportunity provider.
